jQuery

Python

Altair

## INTERESTS

Information Visualization

Accessibility

Productivity tools

Developer tools

## INDUSTRY EXPERIENCE

### Wish | Product Designer | Internship | May'20 - Present

- Designing and shipping experiences for the Wish Local mobile app
- Creating user flows, information architecture, job stories, wireframes, visual assets, high fidelity mocks, and prototypes

### Microsoft | UX Designer | Full time | Apr'18 - Jul'19

- Sole designer for Microsoft's Azure Backup product
- Collaborated with 10+ product managers over multiple projects to deliver experiences for the Azure Backup service
- Owned the design, and delivered end to end experiences for Backup Center in close collaboration with PMs, Engineers, and the Azure UX team

### Postman | UX Designer | Full time | Jun'16 - Dec'17

- Reported directly to the CEO and wore multiple hats as part of a small, tight-knit team spanning across India and the US
- Designed and shipped several key experiences for the app
- Actively engaged in customer support through github, twitter, and zendesk
- Documented and presented design decisions as part of weekly demo days
- Wrote UX copy and blog posts on the Postman blog

### HCII, Carnegie Mellon University | UX Design Intern | May - Jul'14

- Worked on supporting synthesis of diverse information sources through crowdsourced outlines (published in HCOMP '15)
- Created mocks and designed experiments on Amazon Mechanical Turk

### Bosch | UX Designer | Internship | May - Jul'13

- Delivered high fidelity screens for BODAS-Visual DC Configurator
- Worked on design iterations based on user testing findings

## ACCOMPLISHMENTS

### First position in OzCHI 2014

International student design challenge held in Sydney, Australia

### Publications in ACM digital library as first author

For conferences: Creativity and Cognition 2015, India HCI 2014
